ANNUAL CONFERENCE OF UROLOGICAL SOCIETY OF INDIA WEST ZONE

Venue: Mahatma Mandir Convention Centre, Gandhinagar

Hello friends and respected seniors and teachers,

The scientific program for the 35th annual conference of the Urological Society of India - West Zone is ready. The program has been made with the intent of covering all the broad subspecialties and making it as interactive and visual as possible.

We thank all our Session Convenors for their commitment and efforts in helping us plan a clinically useful and interactive scientific program.

Highlights of the scientific program are:

1. A spectrum of 6 international faculties (2 each from the specialities of Endourology, Uro-oncology and Pediatric Urology).
2. Semilive surgical videos (240 minutes) covering
 - basic urological procedures like hypospadias,chordee correction, FANS in RIRS, supine PCNL, ERBT.
 - Robotic surgeries like RRP, ureteric reconstruction, robotic simple prostatectomy, robotic pyeloplasty, etc)
 - Partial nephrectomy (open, laparoscopic,robotic)
 - Radical Prostatectomy
 - Anatomic enucleation of prostate
 - Andrology procedures like circumcision, penile implant, grafting in Peyronie's disease
 - Urethral reconstruction (graft harvesting and use techniques, staged urethroplasty techniques)
 - Tricky situations in stone surgeries
 - Transplant: donor retrieval, bench surgery and recipient surgery.
3. Interesting debates (4)
4. Clinical case based panel discussion with experts (12 sessions) in Urolithiasis, complications in transplantation, renal masses, prostate cancer, pediatric urology, LUTS and BPH in the elderly, GU tuberculosis, varicocele and OATS, consensus in controversies and intra-operative surgical complications.
5. Time for delegate interaction at the end of every session.
6. Opportunity to young and newer people on the stage.
7. Prize paper sessions: 18 podium, 18 videos and 70 posters (3 prizes in each category)
8. Quiz for postgraduates and a special quiz for delegates.
9. Building a successful urology career for young urologists with emphasis on digital presence and options of international fellowships.
10. Short talks (4-6min each) replacing lengthy lectures.

Having enlisted the highlights, the truth remains that no scientific meeting can be successful without a healthy delegate attendance and participation. We look forward to everyone's registration and participation in our annual academic event. We also look forward to your feedback and suggestions towards betterment of the scientific agenda every year.

**Regards,
The Council, USIWZ.**

MODERATED PAPER PRESENTATION GUIDELINES

E-Poster Presentation Specifications:

1. The E-poster will be displayed on standard 42" (Diagonal) LCD
2. File format should be PowerPoint (.PPT)
3. Total size of the presentation should not exceed 20 MB
4. Maximum number of slides per E-poster: 3 (besides the title slide)
5. The title slide should contain the title of your presentation along with the abstract number for the judges to mark your paper.
6. Author's name or name of institution should not be disclosed in the file name or in the presentation.
7. All slides should be in landscape format
8. Animation/movies/sounds will not be supported; please submit in a static PPT format only.
9. Design Specifications
 - Each slide title should be placed in a title placeholder.
 - The text should include (most likely as separate elements of the poster): Introduction, Aim, Methods, Results, Conclusion and Acknowledgements.
10. The poster should be self-explanatory. Text should be brief and well organized
11. Font specifications:
 - It is suggested that font size of the text should be at least 26 to 36 point.
 - The font chosen should be a simple and clear one (e.g. Helvetica).
